

Re: Allowing new LPFM stations to take priority over current FM translator service.

In many areas, K-LOVE is heard via a FM translator. As a parent, it is important for me to turn on a radio station that does not contain crude sexual humor or other content that I find objectionable, though it is prerrmissable on air. K-LOVE provides a family-friendly alternative. Especially in this time where our airwaves are filled with content that the majority of people find objectionable, it is important to keep stations like K-LOVE on the air and giving us a choice in what we want to hear. On K-LOVE there is no 7-second delay rule necessary. Please do not allow these current translators to be displaced by new LPFM stations.
